Midland Asphalt Materials Inc; is a leading company in road resurfacing technology. With an extensive range of products and services, Midland can meet your surface maintenance requirements for rural and urban roads, airport runways and any other areas in need of asphalt surface treatment.

Headquartered in Tonawanda, New York, Midland operates a network of sales and storage facilities. The company also offers a complete range of speciality products, services and skills to meet your particular civil engineering needs. Midland is committed to quality, service, dependability, and customer satisfaction. Investment in research and development, coupled with world-wide intro-company technical cooperation, has helped Midland introduce cleaner, safer, and more efficient application methods and increasingly effective products.
