

UNITED STATES LICENSEE

5 Year License Deal for Macfix® Cold asphalt Tecnology

Midland Asphalt Materials Inc

Macismo International Limited is pleased to announce that an exclusive license has been agreed for 25 States of America with Midland Asphalt Materials Inc, Midland are a part of the internationally renowned Colas Group of Companies and are based in New York State in several locations.

During August 2007 the Midland technical team worked closely with the Oswego County Highways maintenance division in New York State (who operate their own Asphalt Plant), to locally re-produce and trial the MACFIX® cold Asphalt maintaining the same unique features and Benefits, that has given the MACFIX® product its success in the UK with Colas Ltd since May 2005.

Martin Thompson the Technical & Marketing Manager was introduced to the MACFIX® product in October 2006 and after being convinced of the products unique performance by the successes with Colas Ltd in the UK Martin decided to progressively implemented the Product in the US. The positive feedback from the Oswego County winter maintenance crews led to the license agreement in January 2008.
