

SOUTH AFRICA COLD ASPHALT MANUFACTURING LICENCE

Macismo are delighted to announce that an exclusive 5 years Manufacturing License for South Africa has been agreed for the Macfix® cold asphalt system with National Cold Asphalt (Pty) Ltd (NCA), a part of the Raubex Group.

Thanks to the dedication of the NCA Team and following almost 2 years of trials and demonstrations across the country, the Macfix® based cold asphalt product has been proven to perform throughout all seasons in all weather conditions, the very user friendly product called National Cold Asphalt™ has the workability of hot mix repair materials but with the added benefit of long term storage life but once applied to potholes and patches becomes a permanent repair. It is expected that National Cold Asphalt will provide a major contribution to South Africa's pothole repair problems whilst at the same time providing some much needed income opportunities for locally trained personnel.

Manufactured and packed by National Cold Asphalt (Pty) Ltd.
